All patients seeking health care services at Forest Family Practice are assured that they will be served regardless of ability to pay. No one is refused service because of lack of financial means to pay. This program is designed to provide discounted care to those who have no means, or limited means, to pay for their medical services (uninsured or underinsured). Forest Family Practice will base program eligibility on a person's ability to pay and will not discriminate on the basis of an individual's race, color, sex, national origin, disability, religion, age, sexual orientation, or gender identity. The Federal Poverty Guidelines are used to create the sliding fee schedule (SFS) to determine eligibility.

For the following table, please list the patient and all family members living in the same household as the patient (family unit). A family unit is a group of two people or more (one of whom is the householder) related by birth, marriage, or adoption and residing together; all such people (including related subfamily members) are considered as members of one family. Non-related household members are included when calculating family size.

Income includes: gross wages; salaries; tips; income from business and self-employment; unemployment compensation; workers' compensation; Social Security; Supplemental Security Income; veterans' payments; survivor benefits; pension or retirement income; interest; dividends; royalties; income from rental properties, estates, and trusts; alimony; child support; assistance from outside the household; and other miscellaneous sources.
